Contact Margaret Mills, Administrator of the Minnesota Concrete Council at 651-482-9549 or via e-mail at [margaret@mnconcretecouncil.com](mailto:margaret@mnconcretecouncil.com)

This networking event is being co-hosted by the Minnesota Concrete Council (MCC) and the Younger Members Group of the Minnesota Structural Engineers Association (MNSEA). The event is intended for younger members of both associations who are looking for opportunities to learn more about the construction industry via networking with other young professionals in a fun, relaxed atmosphere.

So, what the heck is kubb? Kubb is a Swedish lawn game possibly dating back to days of Viking conquest. It is a game played between two teams attempting to knock over the opposition's kubbs and finally the king to win the game. While mastering kubb is difficult, learning kubb is quite easy. Players must work together, discovering improved ways to play and new strategies. Individuals talk out and learn that compromise will most benefit their team. Visit <http://minnesotakubb.com/> for more information about kubb.
